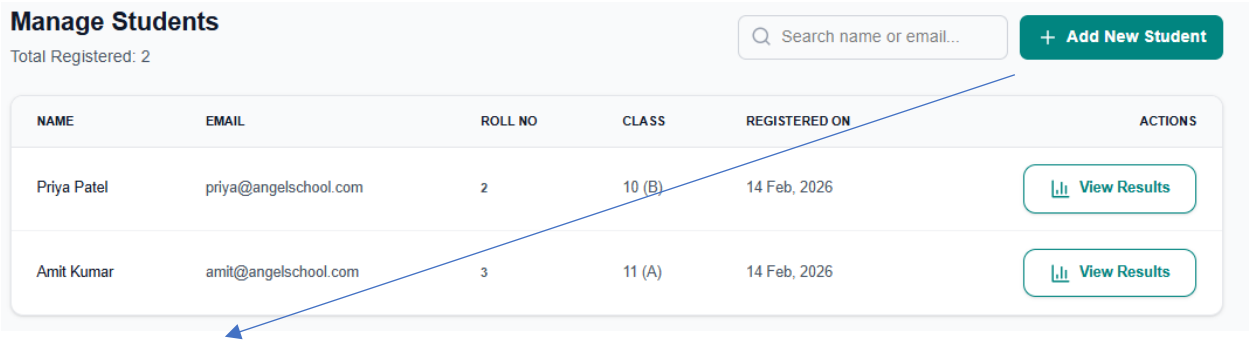
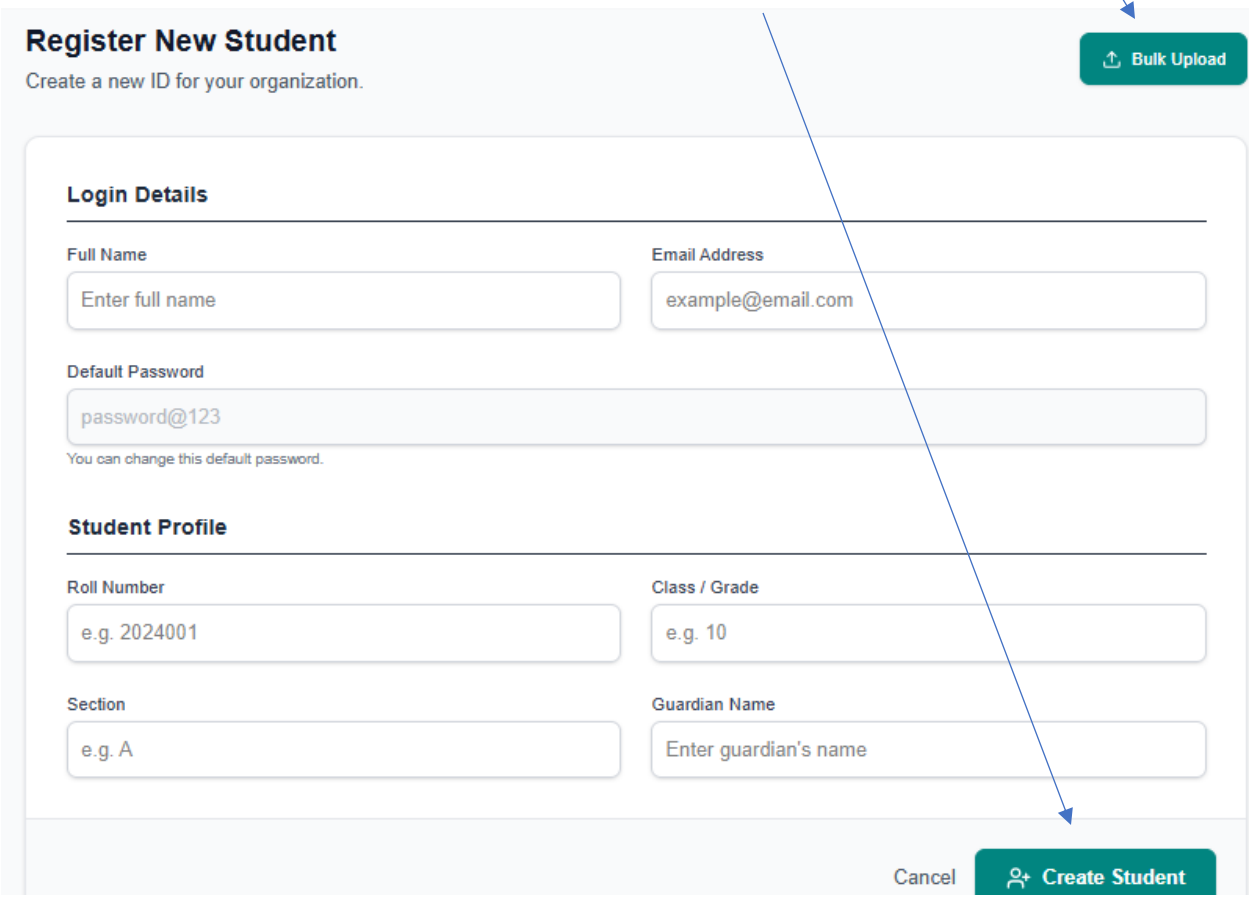
Manage Students will allow to add students as shown in the 2nd snapshot on this page and also to view their reports from **VIEW RESULTS tab**



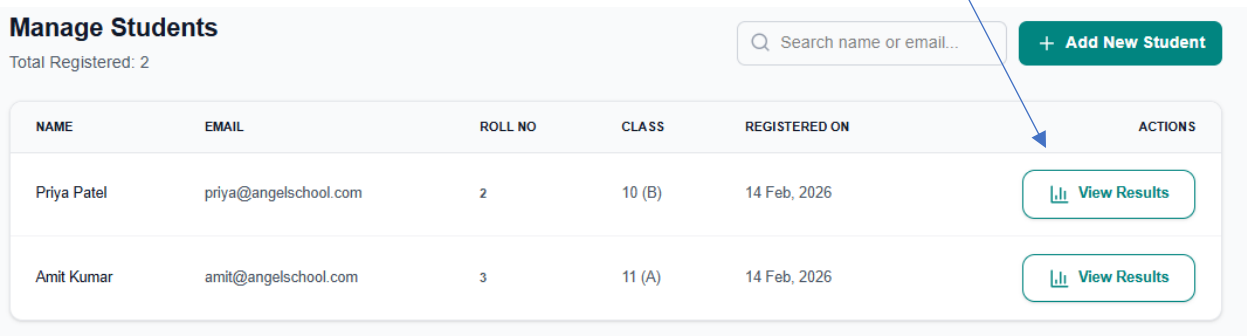
Register new student for these tests with below shown details one by one of by **BULK UPLOAD** using a csv or excel. After filling, click on **Create Student**



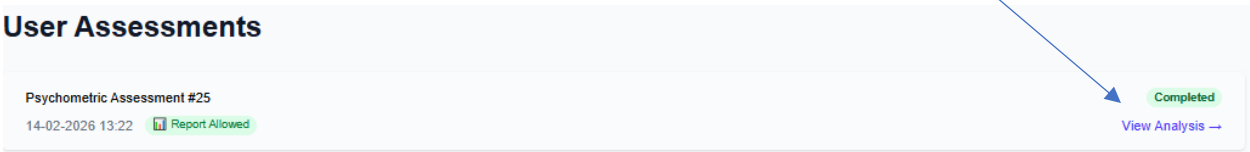
Email Address and Default Password would be the username and password for students to start their individual test

Udyantra

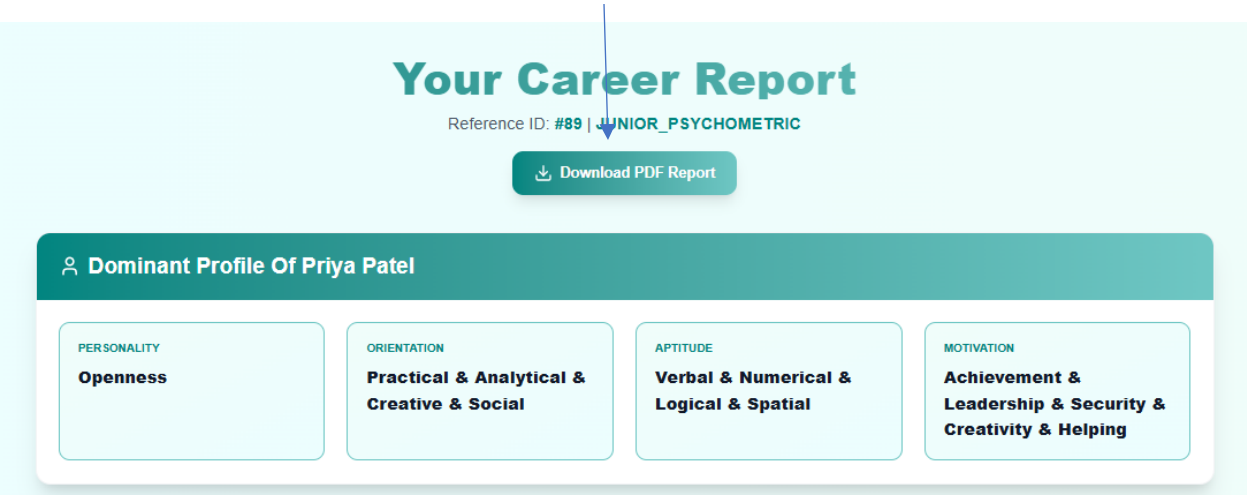
On this tab only, you can also review the psychometric report from **VIEW RESULTS** who have completed the tests



Click on VIEW RESULTS to come on below page and click on **VIEW ANALYSIS**

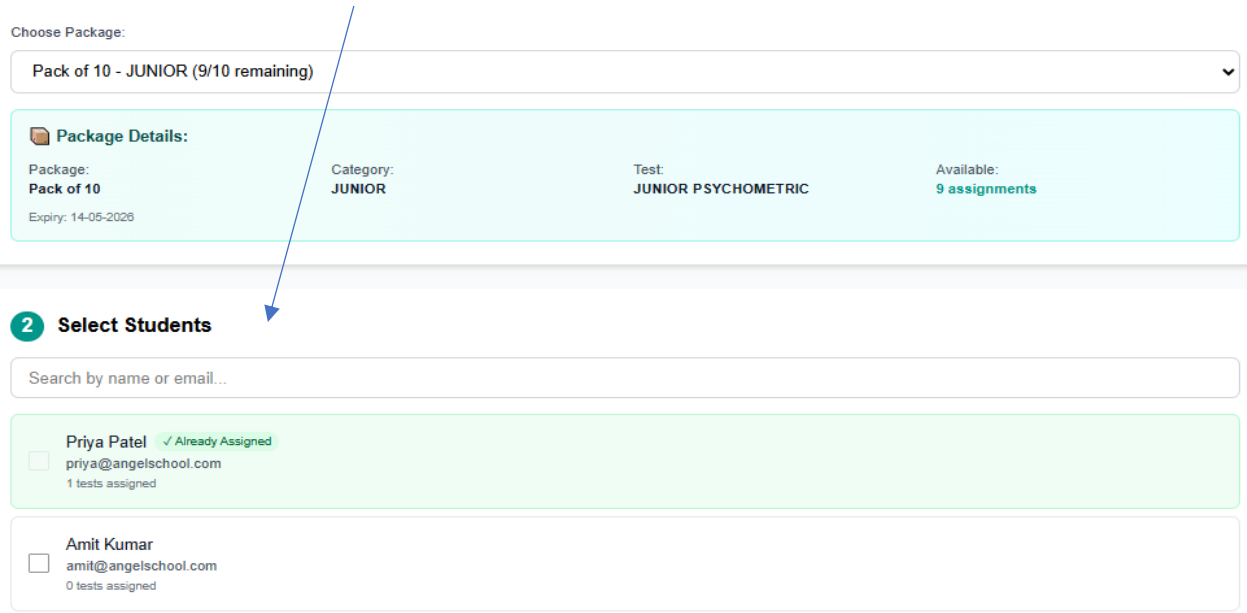


You can view the results and download the **report** from this page as shown below

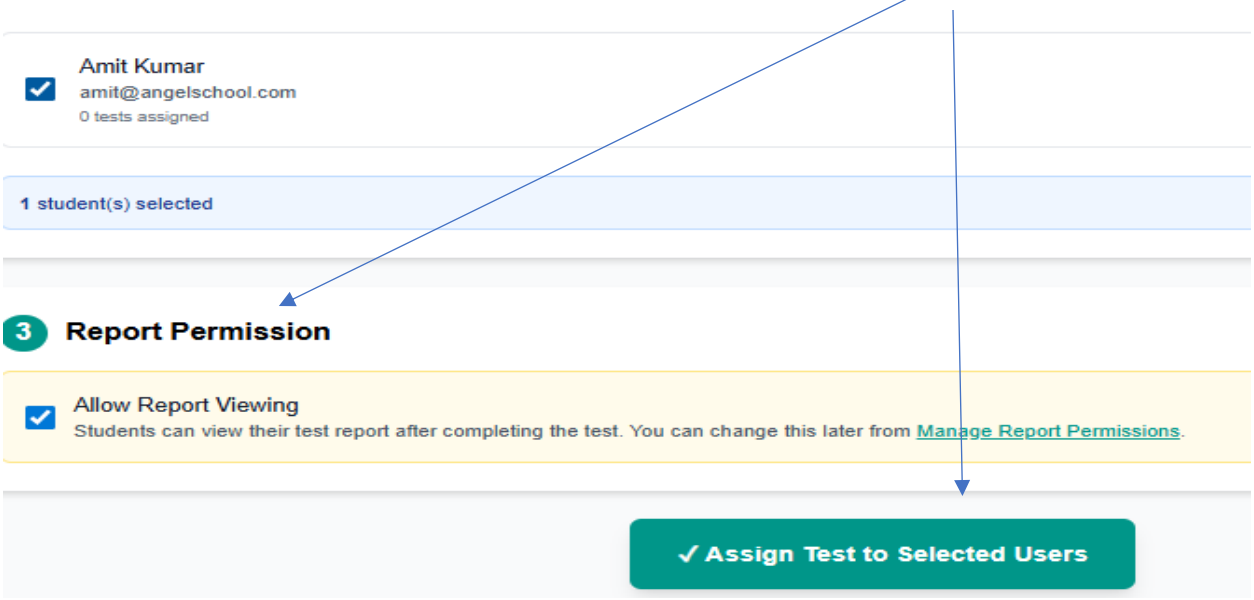


Manage Tests allows you to **Assign test** from the bought packs to the added list of students

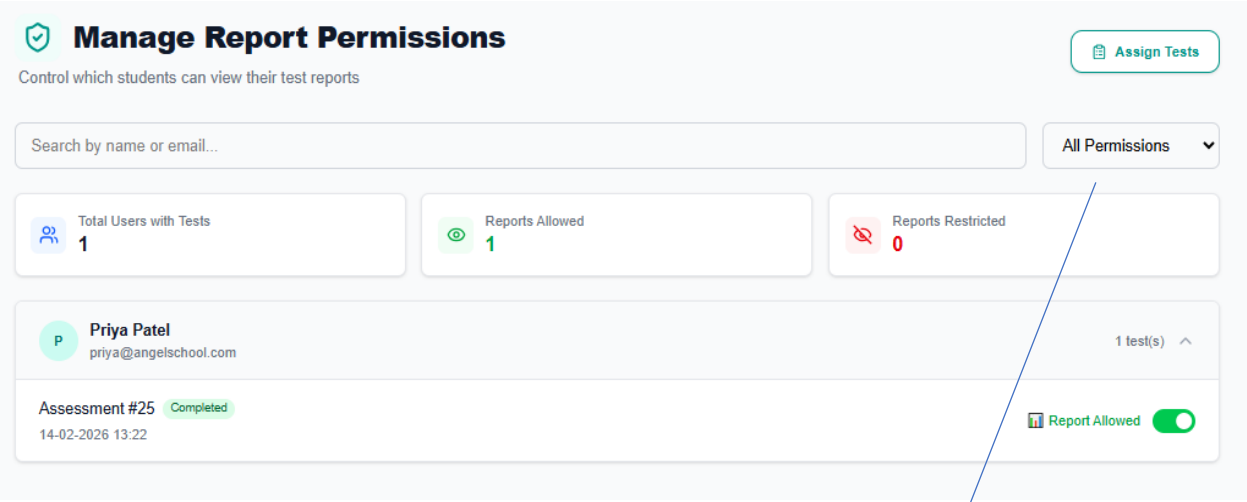
Select a package from dropdown list that has been purchased, you will see **pack details, expiry, remaining test** and **list of students to assign**



You can either **select student to assign from list** or also **search by name or email** in case list is long. Once you click on the tick box against the respective kid, you can **allow or disallow report to be viewed by the student** as shown below and then click on **Assign test to selected user**



Report Access allows you to **view all students with report access or not**



You can view the student list or can search by name or assigned email ID

From **All Permissions tab** you can filter kids where you have allowed **report access or not**
